

**WATER
TREATMENT
SOLUTIONS
FROM THE
TEXTILE
EXPERTS**

Water Treatment Solutions: From the people who understand textiles *and* water treatment.

LRT, a part of the renowned LMW Group of Coimbatore, take their expertise in the textile industry to a new sphere: with the latest solutions in water treatment, recovering of salt and water specifically to textile units.

With technical knowhow from world leaders **Panta Rei** of Italy, **LRT treats and recycles process water from the textile industry**. A deep domain expertise in the textile industry helps us understand your needs, and makes us conscious of specific challenges. Ensuring your water treatment is more efficient when you come to us.

We use bio solvent solutions, rather than harsh chemical cleansers – to ensure that we do not harm the land and the water. Ongoing research and development that **Panta Rei** achieves, in partnership with its suppliers, allows us to optimize the equipment installed, which results in reducing energy consumption, decreasing operating costs and increasing process efficiency.

Solutions from LRT:
Effective both in terms
of work and your
bottomline.

LRT OFFERS END TO END SERVICES FOR WATER TREATMENT:

Design

We custom-design plants to your specific needs and terrain. With in-depth experience in constructing waste water treatment plants, *Panta Rei* is a world leader in the design field. Every parameter is taken into account when we design your solution: from how intensive the process needs to be, to weather conditions, the hardness of your water and the availability of solvents.

So when we finally set up your plant, it is the most effective and efficient solution available.

Feasibility Studies:

LRT helps clients analyse the ability to complete a project successfully, taking into account economic and technological factors and schedules. A feasibility study allows you to investigate the possible negative and positive outcomes of a project before investing too much in terms of time and money.

After Sales Support.

We build the most effective solutions. And we also build relationships. When you come to LRT for a water treatment plant, you can rest assured that we will always be there for prompt assistance, that comes up with maintenance. Our technical staff is always available through the help desk, and our engineers are always ready to visit “on site” to offer consultancy or solve problems if any.

They often say LRT stands for “Lots of Reasons to Trust”. Entrust your water treatment solutions to us. And you can rest assured, that you’ll never have to worry.
